*Dear Customer,*

We **welcome** new customers to our **NEW catalogue 14** and thank all our existing customers for their continued support.

As you will know due to the economic climate more and more dentists are looking for better deals and discounts and we are responding to this challenge in the following way:

**All Sections:**

- All the prices in this catalogue are discounted from manufacturer's RRP and have multi-buy offers included

**From our Consumables Section**

- You can take advantage of our multi-buy rates available on a number of products that give 10% -22% discounts
- We are also introducing a flat 15% discount for orders from our consumable section that exceed £200.00 in value (excludes vat and multi-buy rates and SDI 500 alloy tubs)

**From our Instruments Section**

- Spend over £40.00 and get 10% discount (excludes vat)
- Spend over £100.00 and get 15% discount (excludes vat and instrument kits)
- Spend over £200.00 and get 20% discount (excludes vat and instrument kits)

Many dentists are switching to our own brand consumables and achieving cost savings

Our staff are always available to serve you or offer advice but if you prefer to shop on-line please visit [www.ukdentalsupplies.com](http://www.ukdentalsupplies.com)

Yours Sincerely  
**The BSDI Team**

**Orders received before 3.00 PM  
will be despatched the same day with  
FREE DELIVERY\***

\*Minimum spend £30.00 otherwise £3.50 postage or £5.00 courier charges apply

This catalogue is distributed to customers at the BDTA UK dental show Birmingham 17-19 October 2013 with prices applicable from 17 October 2013 and supersedes all previous issues. Electronic copies can be downloaded from the above website.

## Parcan

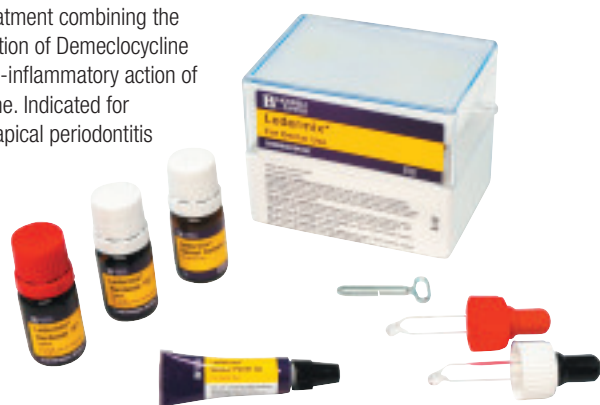

3% Sodium hypochlorite for canal irrigation  
 SEPPARSH03 250ml **£16.95**

## Ledermix

A dental treatment combining the antibiotic action of Demeclocycline with the anti-inflammatory action of Triamcinolone. Indicated for pulpitis periapical periodontitis

Ledermix Kit	BLLEDKIT01	Pack	£62.45
No.2 paste	BLLEDRP01	5g	£44.50
No.3 powder	BLLEDP3	3g	£24.25
No. 4 hardener fast	BLLEDH405	5ml	£6.60
No. 5 hardener slow	BLLEDH505	5ml	£6.60

## Tubliseal

Zinc oxide eugenol sealant. A two paste hand mix system for sealing root canals Base 10g and accelerator 3.5g

SYBTUBCS01 Pack **£34.59**

## Hemocollagene Sponges

Blister packed sterile sponges

SEPHS01 24pk **£32.95**

## Biodentine

Biodentine is the first material offering bioactivity and outstanding sealing properties to fully replace dentine both in the crown and in the root with unique benefits:

- Preservation of pulp vitality
- Prevention of clinical failures
- Ultimate dentine substitute
- ZERO shrinkage
- High resistance to shrinkage

SEPPIO01 15 capsules **£124.95**

## PROSTHETIC DENTISTRY

### Racestyptine cord

Impregnated cord for retraction of free gingival before impression taking  
SEPRACE02  
med 0.8Ø 4mtr

**£19.35**

### Racestyptine solution

Solution for gingival retraction complementing mechanical action of retraction cord before impression taking  
SEPRACE01 13ml

**£20.89**

## Septofil

Non impregnated knitted cord  
SEPTOFIL03  
med 0.8Ø 2.5mtr

**£23.95**

## Racegel

Racegel is a brand new gel specifically designed to make gingival preparation procedures easier and more comfortable for patients while ensuring the quality and precision of impressions

- Clears the surgical site by controlling bleeding and oozing
- Easily access the margins of the preparation

SEPTRG01

3 x 1.4g + 20 tips

**£64.95**

## ORAL HYGIENE

### Chlorhexidine

Chlorhexidine gluconate antiseptic mouthwash (chlorhexidine Gluconate 0.2%w/v)

- Antimicrobial activity kills harmful bacteria present on teeth and gums

### FX SERIES HANDPIECES

**NEW**

### An integrated body offering peak performance and durability

With FX series, NSK introduced integrated contra-angles that reflected technologies developed throughout NSK history. The slim, stylish body gives you a larger operating field and offers a more secure grip. Stainless steel material ensures high durability and lighter weight, resulting in excellent all-around usability. FX series handpieces are also easy to clean due to their integrated construction. To support dental professionals handling a wide variety of applications, FX series lineup covers cutting, PMTC treatments, and endodontic procedures

#### FX-25M

Slim stylish integrated body with longer neck and smaller head. 1:1 for CA/RA burs 2.35mm. TD Up to 40,000 rpm

FX-25M **£149.14**

#### FX-15M

4:1 reduction up to 10,000 rpm

FX-15M **£168.17**

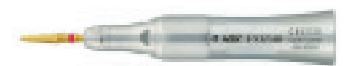

#### FX57M

FX57M's head incorporates NSK's original and exclusive dustproof mechanism known as the Paste Defense System. This system prevents polishing paste debris from entering the handpiece, and the DLC coating on the rotor prevents breakage caused by surface abrasions from the polishing paste. These features help to significantly extend the life of the handpiece.

4:1 prophy for screw in cups. Up to 5,000 rpm

FX57M **£168.17**

#### FX65M

1:1 straight. Up to 40,000 rpm

FX-65M **£149.14**

### FX AIR MOTOR KIT

Includes:

FX25M 1:1 contra

FX65M Straight

FX205 Motor

FX205MM4 4 hole **£400.42**

FX205Mb2 2 hole **£400.42**

#### FX205M

The NEW FX205M mini air motor is 25% shorter (40.8mm compared to 52.3mm) and 20% lighter than previous models giving optimum balance and reducing stress and fatigue during treatments.

FX205MM4 **£257.12**

FX205MB2 **£257.12**

### Easy Cartridge Replacement

Cartridges are easily replaced with the accessory tools provided, helping you save on costs and reduce downtime (FX25/FX23 only).

## NSK HANDPIECES - SLOW SPEED (cont)

### S MAX M

#### Contra Angle Handpieces

Ergonomic design with stainless steel body, ceramic bearings, clean head system, new ultra push chuck, cellular glass optics suitable for thermosinfectant  
1:5 Speed increasing, quattro spray for FG burs 1.6dia max speed 200,000 rpm

M95 Non-optic	<b>£533.06</b>
M95L Optic	<b>£674.71</b>

1:1 Direct drive, single spray, for CA burs 2.35dia max speed 40,000 rpm

M25 Non-optic	<b>£358.82</b>
M25L Optic	<b>£546.51</b>

4:1 Reduction, single spray, for CA burs 2.35dia max speed 10,000 rpm

M15 Non-optic	<b>£426.26</b>
M15L Optic	<b>£639.29</b>

#### Straight Handpiece

1:1 Direct drive, single spray, for HP burs 2.35dia, max speed 40,000 rpm

M65 Non-optic	<b>£334.23</b>
---------------	----------------

### S MAX M205

Stainless steel body, 4 hole, internal water, max 25,000 rpm

SMaxM205	<b>£381.94</b>
----------	----------------

#### Clean Head System

is a special mechanism designed to automatically prevent the entry of oral fluids and other contaminants into the handpiece head, thus prolonging the life of the bearings.

### Ti-MAX X SERIES

Titanium body with scratch resistant DURACOAT. Cellular glass optics.

Quattro Spray

For use with FG burs diameter 1.6mm.

TIX95 1:5 Non-optic	<b>£643.12</b>
---------------------	----------------

TIX95L 1:5 Optic	<b>£816.10</b>
------------------	----------------

TIX20 1:1 Non-optic for FG Burs,	<b>£435.82</b>
----------------------------------	----------------

TIX20L 1:1 Optic for FG Burs,	<b>£662.35</b>
-------------------------------	----------------

Titanium body with scratch resistant DURACOAT. Cellular glass optics.

Quattro Spray

For use with CA/RA burs diameter 2.35mm.

TIX25 1:1 Non-optic	<b>£435.82</b>
---------------------	----------------

TIX25L 1:1 Optic	<b>£662.35</b>
------------------	----------------

TIX15 4:1 Non-optic	<b>£515.98</b>
---------------------	----------------

TIX15L 4:1 Optic	<b>£717.05</b>
------------------	----------------

TIX12 10:1 Non-optic	<b>£545.55</b>
----------------------	----------------

TIX12L 10:1 Optic	<b>£761.40</b>
-------------------	----------------

TIX10 16:1 Non-optic	<b>£545.55</b>
----------------------	----------------

TIX10L 16:1 Optic	<b>£761.40</b>
-------------------	----------------

Straight handpiece. Titanium body with scratch resistant DURACOAT. Cellular glass optics. For use with HP/CA burs diameter 2.35mm. Quattro Spray

TIX65 1:1 Non-optic	<b>£406.58</b>
---------------------	----------------

TIX65L 1:1 Optic	<b>£613.55</b>
------------------	----------------

360° swivel, LED illumination 32,000 LUX, titanium body with scratch resistant Duracoat, internal water, max 25,000 rpm

TIX205L	<b>£676.39</b>
---------	----------------

### Ti-MAX Z SERIES

LED optics with a small head and body give superior visibility and better access. Duracoat body makes them extremely durable. Amazingly quiet operation with excellent ergonomic shape.

3 year warranty

#### Ti-Max Z95L

1:5 speed increasing, quattro spray, 200,000 rpm max, FG burs 1.6 dia Z95L

**£933.04**

1:1 direct, single spray, 40,000 rpm max, CA burs 2.35 dia Z25L

**£776.19**

4:1 speed reducing, single spray, 10,000 rpm max, CA burs 2.35 dia Z15L

**£840.29**

16:1 speed reducing, single spray 2,500 rpm max, CA burs 2.35 dia Z10L

**£892.26**

#### Ti Max Z45L

45° angle provides effortless access to hard-to-reach molars that a standard contra-angle simply can't match. Can take 20mm and 25mm burs

1:4.2 increasing, quattro spray, 168,000 max rpm, solid titanium body, FG burs 1.6 dia

TimaxZ45L	<b>£901.94</b>
-----------	----------------

### Ti-MAX NANO SERIES

The ultimate small, lightweight contra angle with perfect balance  
10% smaller and lighter than previous models

Perfect balance, optimal hand position dramatically reducing fatigue, smaller head and slimmer shape, outstanding durability with solid titanium body and Duracoat protection. 3 year warranty

#### nano95LS

1:5 speed increasing, quattro spray, 200,000 rpm max, FG burs 1.6 dia., microfilter

nano95LS	<b>£995.25</b>
----------	----------------

#### nano25LS

1:1 direct, single spray, 40,000 rpm max, CA burs 2.35 dia., microfilter

nano25LS	<b>£827.94</b>
----------	----------------

#### nano15LS

4:1 speed reducing, single spray, 10,000 rpm max, CA burs 2.35 dia nano15LS

**£896.30**

#### nano65LS

1:1 straight, single spray, 40,000 rpm max, CA burs 2.35 dia., nano65LS

**£736.31**

In combination with the NLX nano motors nano contra angles give the operator perfect balance and facilitating more accurate treatments  
See page 11 for details of nano micromotors

### DynaLED M205LGM4

**NEW**

#### World first - Provides LED illumination from a non optic hose

The micro power generator instantly converts non optic Borden 2 hole and Midwest 4 hole tubings to optic with minimal vibration ensuring quiet operation and delivering stable high quality LED illumination even at low speeds. Air motor performance is not impaired in any way

M205LGM4	<b>£676.39</b>
----------	----------------

**£676.39**

## NSK HANDPIECES TURBINES

### PANA-MAX SERIES

The Pana Max is the latest in the popular NSK Pana series replacing the Pana Air.

#### Pana Max

Screw on type high speed turbine, clean head system, ultra push chuck, single spray, non-optic. Available in standard and torque heads. Suitable for thermosinfectors.

Standard Head - Size 10.3dia x 13.8H	
PAXSUM4 Midwest 4 Hole	<b>£216.22</b>
PAXSUB2 Borden 2 Hole	<b>£216.22</b>
Torque Head - Size	
PAXTUM4 Midwest 4 Hole	<b>£216.22</b>
PAXTUB2 Borden 2 Hole	<b>£216.22</b>

#### Pana Max Plus

The Pana Max Plus has all the characteristics of the Pana Max with a Quattro spray

Standard Head - Size 10.6dia x 12.5H

PAXPSUM4 Midwest 4 Hole **£230.10**

PAXPSUB2 Borden 2 Hole **£230.10**

Torque Head - Size 12.1dia x 13.5H

PAXPTUM4 Midwest 4 Hole **£230.10**

PAXPTUB2 Borden 2 Hole **£230.10**

#### Pana Max Plus QD

The QD version also has Quattro spray and is quickly interchangeable with the QD couplings

Standard Head - Size 10.6dia x 12.5H

PAXQDSU **£256.39**

Torque Head - Size 12.1dia x 13.5H

PAXQDTU **£256.39**

#### QD-J Connector

Suitable for all NSK QD type handpieces. One touch lock system 360° swivel anti-retraction valve.

2 & 3 Hole Borden

QDJC01 **£77.62**

4 Hole Midwest

QDJC02 **£77.62**

### S MAX M SERIES

#### Slim Ergonomic Design and Unrivalled Cutting Performance

- Stainless Steel Body
- ISB Turbine
- Cellular Glass Optics
- Ceramic Bearings
- Clean Head System
- Push Button Chuck
- Quattro Spray
- LED couplings available for NSK, KaVo®, and Sirona®
- Integrated LED handpieces available for W&H® and Bien Air® couplings
- Non optic versions available for KaVo® and W&H® couplings
- Optic versions available for NSK, Sirona®, W&H® and Bien Air®

Mini (500) head power 16W

Speed 380000-450000 rpm

Size 10.6dia x 12.5H

Standard (600)head power 17W

Speed 360000-430000 rpm

Size 12.1dia x 13.5H

All non optic versions **£467.50**

All optic versions **£501.58**

### Ti-MAX X SERIES TURBINES

#### NSK's Premium Series Turbines

- Titanium Body with Scratch Resistant DURACOAT
- ISB Turbine
- Cellular Glass Optics
- Ceramic Bearings
- Clean Head System
- Push Button Chuck
- Quattro Spray
- 2 Year warranty
- 3 head sizes available

All optic versions **£677.62**

### NSK COUPLINGS

#### LED Light

For NSK with water volume adjuster

PTL-CL-LEDIII **£162.02**

For NSK no water adjustment

PTL-CL-LED **£145.62**

#### KCL-LED

For KaVo® and MULTiflex® LUX with water volume adjuster

KCL-LED **£229.66**

SCL-LED for Sirona® **£229.66**

### 4 HOLE MIDWEST NON OPTICAL FITTING

#### FM-CL-M4

Stainless Steel Body.

FMCLM4 **£97.03**

### 2/3 HOLE BORDEN NON OPTICAL FITTING

#### FM-CL-B

Stainless Steel Body.

FMCLB **£97.03**

#### Tubing Adaptor

Connects Borden handpieces to Mid West tubing

ADAPT01 B to MW **£39.95**

ADAPT02 MW to B **£39.95**

Glows NSK LED coupling

QDJNLED **£99.00**

### CARTRIDGES

BACA10L 10:1 reducing  
RRP £1109.00 save 25% **£831.75**

### MICRO SERIES

Up to 40% more compact and 33% lighter, Micro-Series combinations offer perfect balance, exceptional power and unique versatility. Combined with short nose LED micromotors, Micro-Series contra-angles and handpieces redefine the standards for dental instruments.

Used together, the MX2 and Micro-Series contra-angle are no larger than a turbine. By reducing the size as much as possible, the balance point of the instrument/micromotor assembly has been moved noticeably forward. This results in perfect balance. The force required to keep the instrument in the hand has been significantly reduced. This allows for more accurate movements, with less fatigue at the end of the day.

Optic Internal water 2 year warranty

BAMCA1L 1:1 direct  
RRP £867.00 save 25% **£650.25**

Speed increasing factor of 5. Light via dual optical glass rods, push-button bur locking with anti-heating system, bur shank Ø 1.6 mm, anti-retraction valve.

BAMCA15L 1:5 increasing  
RRP £1040.00 save 25% **£780.00**

## NSK HANDPIECES ENDODONTIC

90° Reciprocating Action

**TEQ-E10R**

for engine files 1/4 Turn Endodontic  
 TEQ-E10R **£285.33**  
 TEQ-E 1.1 **£151.95**  
 TEQ-ER10M (TD) **£298.40**

**TEP-E10R**

for hand files 1/4 Turn Endodontic with  
 10:1 reduction shank.  
 TEP-E10R **£285.37**  
 TEP-E10RM (+D) **£298.38**

**MP-ER64M**

64:1 Reduction, Miniature Head.  
 360° rotation for engine files.  
 Thermodisinfectant proof  
 MPER64 **£303.65**

**EX-ENDO 128**

128:1 Reduction, Miniature Head. 360°  
 rotation for Ni Ti files. 2.35ø  
 EXEND0128 **£386.69**

**TiMax Ti-ENDO**

With an easy to set adjustable ring,  
 Ti-ENDO provides the precise torque  
 control for sensitive endodontic  
 procedures. 128:1 reduction, 4 Levels of  
 torque setting, (0.25, 0.5, 1.0, 3.0 Ncm),  
 exceptionally small head, solid titanium  
 body, for NiTi files 2.35ø, 360° rotation  
 Ti-ENDO **£557.43**

**MPF16R**

16:1 Reduction, miniature head, for  
 Ni-Ti files 2.35ø  
 MPF16R **£192.19**

**MPAF16R**

With probe ring for apex locator, long  
 shank files  
 MPAF16R **£252.20**

**MPASF16R**

For short shank up to 12mm  
 MPASF16R **£252.20**

**ENDO-MATE TC2**

Cordless and portable with  
 torque control and auto-  
 reverse. Miniature head  
 adjustable to 6 positions,  
 9 preset programs for  
 simple speed control.  
 Pack includes motor,  
 MPF16 head NE140 charger.  
 ENDOMATE TC2 PACK **£999.82**  
 ENDOMATE TC2 MPA PACK  
 With Apex locator head **£1091.12**  
 All heads available please ask

**iPEXII**

Auto-detects the apex accurately in any  
 conditions wet or dry. Uses SmartLogic  
 to remove virtually all signal  
 interference from the root canal itself to  
 precisely detect the location of the  
 apex. Pack includes control unit, 1.8m  
 probe, 3 file clips, 3 lip hooks, tester  
 and batteries  
 iPEX PACK **£593.57**

**DENAP01**

Works equally well in wet or dry  
 conditions, sound alarm indicates  
 location of apex, adjustable sound  
 volume. Unit supplied with 4 lip hooks,  
 2 apex fire holders 2 apex probe leads  
 and batteries  
 DENAP01 **£215.00**

## SURGICAL EQUIPMENT

**Surgic Pro Surgical Micromotor System**

Surgical micromotor unit with advanced  
 torque calibration enabling optimum  
 speed and torque settings required for  
 implantology and micro surgery.  
 8 programs, motor speed 200-40000.

Non optic set with SMAX SG20 20:1  
 reduction handpiece **POA**  
 Optic set with TiMax X SG20L 20:1  
 reduction handpiece **POA**  
 SURGPRO1 RRP £3493 **POA**  
 SURGPRO2 RRP £4680 **POA**

**SURGICAL HANDPIECES****SGS-ES**

Surgical handpiece for surgical burs  
 2.35mm 1:1 direct drive.  
 SGS-ES **£292.37**  
 1:2 speed increasing  
 SGS-E2 **£698.16**

**IMPLANT HANDPIECES****SGM Series**

20:1 Reduction implant handpiece,  
 latch head design, external and internal  
 cooling (Kirschner and Meyer) max  
 1000 rpm  
 SGM-ER20i 20:1 **£345.86**  
 SGM-ER16i 16:1 **£346.36**  
 SGM-ER32i 32:1 **£375.39**  
 SGM-ER64i 64:1 **£375.39**  
 SGM-ER256i 256:1 **£398.49**  
 SGMS-ER20i 20:1 with  
 depth indicator **£515.32**

**SMAX SG-20**

20:1 Reduction implant handpiece  
 stainless steel body, push button  
 chuck, external and internal cooling  
 (Kirschner and Meyer) sealed head  
 design, max 2000 rpm  
 SG-20 **£628.91**

**Ti-Max X-SG20L**

20:1 reduction, titanium body with  
 scratch resistant Duracoat, cellular  
 glass optics, external and internal  
 cooling (Kirschner & Meyer) max speed  
 2,000 rpm  
 X-SG20L 20:1 reduction **£745.00**

**Ti-Max X-SG25L**

1:1 direct drive max speed 40,000 rpm  
 X-SG25L 1:1 direct **£571.74**

**Ti-Max X-SG93L**

1:3 speed increasing FG burs max speed  
 120,000 rpm  
 X-SG93L 1:3 increasing **£711.41**

**Ti-Max X-SG65L**

Straight 1:1 drive, titanium body with  
 scratch resistant Duracoat, cellular  
 glass optics, for HP burs 2.35ø and CA  
 burs 2.35ø (with supplied bur stopper),  
 external cooling, max speed  
 40,000 rpm  
 TiSG65L 1:1 **£545.43**

## HANDPIECE MAINTENANCE

### HANDPIECE OIL

#### Tekpro Universal Oil (300ml)

Our best selling oil. The CFC free oil is inert and will not react with other products. The cap is generic and will accept the majority of nozzles currently available. Tested to 195 degrees this oil will not flocculate and leave a thick tar like deposit on your equipment when autoclaving.

TKP01	1 CAN	£5.80
	6 CANS	£5.65 each
	12 CANS	£5.25 each

### PANA SPRAY

NSK Pana Spray Plus is a specially formulated general handpiece and air motor lubricant. Frequent application of Pana Spray Plus will assure handpiece and air motor performance and durability. Apply Pana Spray Plus every time before autoclaving any handpiece or air motor.

PANASPRAY 500ml can £21.24

PANASPRAYOIL

6 x 500ml cans £114.65

### KaVo QUATTRO CARE

Now available in the new colour of anthracite in addition to the standard mint green is the QUATTROcare from KaVo. KaVo QUATTROcare® cleans by foaming the cleaning components. In addition, the automated dosing system ensures optimum lubrication of the turbines, handpieces and contra-angle handpieces.

- Time savings: 1 minute processing cycle for 4 instruments saves time
- Safety: Program controlled automatic care cycle
- Efficiency: Cleaning with both integrated detergent and foaming oil effect and optimal lubrication
- Universal: May be confidently used with all established handpiece brands
- Optimum cleaning: With the expanding cleaning gas and dirt removing pressure wave
- Optimum automated oil supply: No over oiling of the instruments

QUAT2104 POA

### NSK CARE 3+

#### Handpiece Maintenance System

Correct maintenance performed at regular intervals is a key to high performance and longer life of your handpieces. NSK designed easy-to-use Care3 Plus to facilitate handpiece maintenance at your office. Care3 Plus automatically cleans and lubricates up to 3 handpieces at one time with the touch of button. Both high speed and low speed handpieces are processed thoroughly in a single 2-minute operation cycle

- Economical, efficient and time-saving
  - A fail-safe maintenance solution for your office
  - Filtered air used to rotate handpieces for safety
  - Care for most handpieces & all handpiece brands
  - Disposable mist filtration system
  - Solution level indicator
  - Detachable door for easy cleaning of the unit
  - Easy replenishment of solution tank With a full tank approx. 3500 handpieces are cleaned and lubricated
- Single rotation port plus 2 standard ports

CARE3Plus C1 £1427.06

Dual rotation port single standard

CARE3Plus C2 £1503.08

**Care3 adaptors available to fit all brands of handpiece including E type available at £72.78 each**

Refill maintenance oil available  
1 Litre

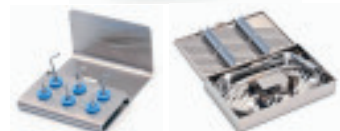

Care3oil £59.87

### ART-IM1

The ART-IM1 is a precise and powerful implantology system with a micro-motor that will adapt to any contra-angle with the following gear ratios: 20:1, 16:1, 1:1, 1:5.

- Wide speed range: 20 - 40,000 RPM
- Powerful torque: 10-50 Ncm
- Ergonomic hand piece
- Durable
- User friendly interface
- 10 preset options

ARTIM1 £2350.00

### Ultrasonic Piezo Surgical System

ARTeotomy OP1 is an ultrasonic bone cutting system driven by piezoelectric technology. Set includes unit, handpiece and cable, tip set and accessory box.

- **Precision** Avoids damage to soft tissue even during accidental contact
- **Powerful and Efficient** Excellent cutting capacity shortens treatment time
- **Intelligent** The control interface has a large graphical LCD touch screen to activate the functions and the pedal foot control is wireless remote
- **Stand alone** The quality efficient water pump enables quieter flushing and cooling and eliminates the need for external water lines

Basic Tip Set contains: Bone saw, Fine Osteotome, Bone Osteoplastic, Osteotome, Tiny round Osteotomy, Sinus membrane separator. Torque controlled wrench also included and a stainless steel autoclavable accessory tray

ARTOP1 Set £2250.00

## AIR SCALERS

# ULTRASONIC PIEZO STYLE SCALERS

## Satelec Pure Newtron P5

**NEW**

Ergonomic design, precise selection of the power by setting the power control to correspond with the colour of the tip, complete with 1s tip and autoclavable universal wrench

SATP5NEW **£959.20**

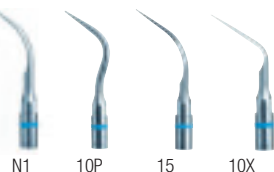

As above but with LED handpiece

SATP5NEWLED **£1263.20**

## Satelec Scaler Handpiece

SATHPKIT **£210.00**

Universal recommended for treating simple cases and gross supra-gingival scaling SATN1

SATN02 **£54.95**

Fine tip designed for scaling shallow pockets. It provides greater irrigation than the other tips SAT10P

SAT04 **£54.95**

Slim tip developed for supra and sub gingival scaling SAT15

SAT1S **£54.95**

Interproximal recommended for the treatment of interproximal spaces and for supra-gingival scaling SAT10X

SAT03 **£54.95**

## Art PB3

- Piezo electric built in scaler
- Easy installation and hook up of the Piezo handpiece to the dental chair
- Set includes PC board, air control, digital display, Piezo handpiece with 4 tips, 4 tip changers and autoclavable box

ARTMB325K **£399.00**

ARTMB330K **£399.00**

## DTE-D7

- Use direct water supply or water bottle
- Autoclavable Satelec® style handpiece
- Vibration frequency 28kHz
- 5 tips and endo attachment included
- The inner water pipe is made from antiseptic material to facilitate the use of clinical fluids such as hydrogen peroxide, chlorhexidine and sodium hypochlorite via the water bottle system

WOOD18 DTE-D7 **£399.00**

## DTE D5

Digitally controlled, 3 functions, Scaling, Perio and Endo. Comes complete with 6 tips: 2 x GD1, 1 x GD2, 1 x GD4, 1 x PD1 and 1 x ED1 and tip changer all Satelec compatible

WOOD31 **£295.00**

## ART-P6

The ART-P6 is a compact piezoelectric scaler. While small, it has Auto Gain Control, which stabilizes and adjusts power settings for optimal performance. It also has a large power dial surrounded by LED lit indicators for readability and easy operation. Four tips: 2 universal, 1 flat chisel, 1 round flat and tip changer

ARTP6 **£299.00**

## UDS-E

- Use direct water supply or water bottle
- Autoclavable EMS style handpiece
- Vibration frequency 28kHz
- 5 tips and endo attachment included
- The inner water pipe is made from antiseptic material to facilitate the use of clinical fluids such as hydrogen peroxide, chlorhexidine and sodium hypochlorite via the water bottle system

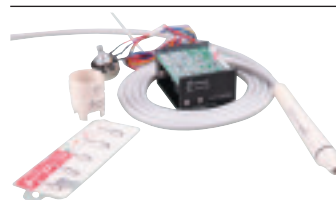

Curing light attachment available see P22  
WOOD17 **£399.00**

## UDS-L

- EMS style handpiece
- Detachable autoclavable handpiece
- 5 tips G1,G2,G3,G4,P1 included
- Endo attachment included
- Digitally controlled very efficient scaler

Curing light attachment available see P22  
WOOD01 **£319.00**

## UDS-N2

Built in EMS® style Piezo scaler. Complete with 4 tips

WOOD28 **£349.00**

## Satelec Style Handpiece

Compatible with Satelec scaler.

### Bonart SPA

Bonart's patented SPA version of the IF50 Streamline #10 Ultrasonic Insert- 25kHz or 30kHz is designed with a plastic handle for easier and stable grip, with water flowing from the tip internally. Spa tip has an autoclavable silicon sleeve and is angled for a more focused water spray to prevent excess splattering and minimizing heat produced at the tip

ARTSPA25K **£40.00**

ARTSPA30K **£40.00**

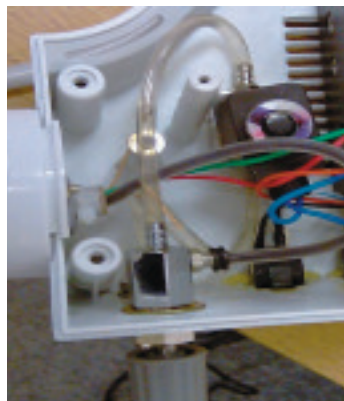

### Bonart Endo Ultrasonic Chuck

Endo Ultrasonic 120 degree angled chuck for root canal procedure, compatible with U files. Available in 25k insert only

ARTENDO120 **£40.00**

## BIOFILM REMOVAL

This shows the build up in an ultrasonic scaler after just 4 months' use

A simple but effective system to remove the biofilm built up in all dental units, plus an on-going treatment with Alpron to ensure no further biofilm problems occur.

The Hypochlorite solution begins the break down of the biofilm and is subsequently flushed from the system by the introduction of the activator solution. The pH shock, so induced, causes complete collapse of the biofilm matrix allowing total flushing of the system and removal of all residues no matter how stubborn. Ensure all handpieces, 3 in1 syringes and any filters are removed prior to treatment, and no blockages will be encountered. Thereafter use a 1% Alpron solution continuously to ensure no further biofilm growth in your clean water bottle fitted to your unit.

This is a complete Alpron and Biofilm Removal System kit comprising:  
3 Part BRS Forte System, 1 litre Alpron Maintenance Solution, Alpron 5 litre Mixing Cannister with easy pour drain tap, 2 Dip Slides, Funnel, 2000ml Jug, Full Instructions, MSD Data Sheets

ALP001	BRS full starter kit	<b>£99.50</b>
ALP002	Alpron 1L refill	<b>£37.50</b>
ALP003	Alpron 5L refill	<b>£149.50</b>
ALP004	Clean & Clear kit alone	<b>£59.50</b>
ALP005	Dip Slide	<b>£5.50</b>

## BRUSHLESS ELECTRIC MOTOR SETS

### Glows

- Electric brushless motor set portable with internal water and fibre optics.
  - Connect to cart with 4 hole tubing to operate from cart foot control.
  - High reliability, economically priced.
- PLPS680 **£695.00**

- Built in electric motor set
  - Optic with internal water spray
  - Speed range 1,000 - 40,000 rpm
  - Speed selection 16:1, 1:1 or 1:5
  - Output DC32V/AC24V
- PLIWS6801 **£595.00**

- External water spray non optic
  - Speed range 60 - 40,000 rpm
  - No speed selection
  - Output DC36V
- PLEWS6802 **£435.00**

## LABORATORY ELECTRIC MOTOR SET

- Set Includes:
- E type electric motor (din plug fitting)
  - LXC-12V Table top controller
  - Foot speed controller
  - ES-30A straight handpiece
  - 4000-20000 rpm
  - Forward/reverse rotation
- LXC-12V02 **£330.00**  
Set excluding ES-30A straight  
LXC-12V01 **£260.00**  
Table Top Controller  
LXC-125 **£156.20**

- Motor Only  
LB-20EMJ (Jack) **£129.80**  
LB-20EM (Din) **£129.80**

## NSK NLX Nano Portable System

- Electric brushless set portable LED optic with internal water
  - Speed 2,000 – 40,000 rpm
  - Torque 3.4 Ncm
- NLXSET01 **£1536.74**

## ELECTRIC MOTOR WITH BRUSHES

## FIMET DENTAL CHAIRS Top Finnish quality with affordable pricing

Fimet products are known for their quality and innovative and modern approach to design. Everything you need at your fingertips – with ergonomic working positions that help you achieve great productivity.

Excellent movement range

Simple adjustment to Trendelenburg position

The chair rotates 224°

The chair's multi-position armrests can be easily locked, rotated to the side or completely removed

Ultra thin backrest and headrest for a more comfortable and ergonomic working position

Comfortable body positioning for patient, ergonomic backrest

F1 Soft

F1 Classic

### FIMET F1 KNEE BREAK AND CLASSIC

- Manufactured in Finland
- Ideal for smaller surgeries
- Knee-break
- Joystick foot control with 8 programs
- Double articulating adjustable headrest
- Height adjustable backrest, length adjustable legrest
- 2 year parts warranty

FIC

Classic Flat Bed chair **£3950.00**

F1S

Soft Knee Break chair **£3825.00**

## FIMET DENTAL UNITS

### MONDO F1

The F1 Mondo is a cost-effective total solution with all the necessary functions for basic dental treatment. The F1 Mondo instruments are controlled with a pneumatic foot pedal.

- Over the patient instrument bridge with choice of continental whip arms or hanging hoses
- Electro mechanical power lift and power backrest with synchronised movement
- 8-program positions, self-diagnostic testing, 2 safety stop switches
- Chair position controls via instrument bridge and suction head
- Soft upholstery with knee-break
- Adjustable headrest + Height adjustable backrest
- Composite armrests (right arm-rest turns 90 degrees for patient entry)
- Upholstery colours: Choice of 19 colours (sample card available)
- Chair mounted cuspidor with timed bowl rinse and cup filler
- 3-way straight syringe + micro-motor outlet + Midwest f/o outlet
- Space for two further outlets for possible scaler
- Aluminium tray mount
- Vision unit mounted light with 2 intensities
- Mondo version suction arm with manual valves and X-ray viewer
- Clean water bottle
- Floor box with disc foot control
- Standard Dry Line C System (F1 wet line with bowl valve available)

F1MONDO

Continental whip arm or traditional hanging hose options

### F1 PRIME

The F1 Prime is a compact system with a side lift mechanism, with a suction head attached to the middle section of the chair frame. With this design, it's quick and easy to adapt the unit for both left- and right-handed use.

As the chair is lifted or lowered, the movements of the lamp, the cuspidor and the instrument and suction bridges are synchronized. The position of the equipment will remain the same, even when chair height is adjusted. This makes working both faster and easier.

The F1 Prime's large selection of options supports virtually countless different configurations that will suit every dentist's needs and preferences.

The F1 units have a cordless foot pedal for operating both the chair and the rest of the unit. This eliminates tangled cables under the chair, improves hygiene, makes cleaning easier and improves the use of space.

## FIMET DENTAL UNITS (cont.)

**Fimet design and manufacture all their units from start to finish in Finland guaranteeing high quality and flexible service**

### Elegant and compact design

The ergonomic and elegant design of the Fimet NEO dental treatment unit makes your practice more functional and convenient than ever before.

### Hygienic, easy-to-clean surfaces

Smooth surfaces and seamless upholstery make cleaning and disinfection easier and ensure good hygiene.

### Extensive movement range

The extensive movement range of the NEO's arms ensures easy, comfortable operation and good working ergonomics.

### Versatile and individualized adjustments

Users can store individual settings for chair positioning and instrument speed ranges, among other parameters.

### Everything within reach

Instruments, trays, suction head and cuspidor are all easy to reach and adjustable according to the needs.

### Endless possibilities

Various operations, working habits, space utilisation and other factors require a flexible and versatile dental treatment system.

## DENTAL CARTS

**Neo units can be supplied in F1 colours and additional ranges. See footers on pages 19 and 20.**

Mobile cart made in USA

3 way syringe + 3 automatic holders, height 27"-35", variable speed foot control

## WASHER DISINFECTORS

### PICO Evo

- 35 minute cycle
- One touch start
- Standard main power
- No venting (internal condenser )
- Auto dosing
- Wide angle view window
- Water balance system
- Twin spray arms
- Universal Handpiece system

PICO03

POA

### PICO XXL

- Made in the UK
- Under bench model suitable for 4 chairs
- EN ISO 15883 compliant
- HTM 2030 and HTM 01-05 compliant
- 12 handpiece dental flush rack
- Takes 8 trays + dental rack
- Hot & cold fill for fast 55 mins total cycle time including forced air drying
- W600 x H820 x D540

PICOXXL

POA

**NEW PICO EVO XXL coming soon**

### PICO Pioneer

Economy model. As the Pico Flush model without the handpiece manifold.

PICO04

POA

### PICO Flush

- Made in the UK
- Bench top model suitable for 2 chairs
- Takes 3 trays + dental rack or 4 trays alone
- Hot & cold fill for fast 45 mins total cycle time including forced air drying
- EN ISO 15883 compliant
- HTM 2030 and HTM 01-05 compliant
- 6 handpiece dental flush rack
- Detergent delivery verification

PICOFD

POA

## WASHER DISINFECTOR PERFORMANCE MONITORING

### Medi-Check

A weekly residual protein test to detect any protein from body fluids or tissue present after cleaning

- Fully complies with HTM2030 and HTM01-05
- Results in less than 30 mins
- Can be used on all work surfaces and for ultrasonic baths
- Easy to interpret colour change results

MDCK25	25 pack	£55.00
	2 x 25 pack	£99.50
	4 x 25 pack	£195.00

### Medi-Check Incubator

Medi-check achieves maximum sensitivity when incubated at 55° for 15 mins or 37° for 30 mins

MDCKINC £149.00

### Standard PCD

The Standard PCD is a consistent reproducible way to monitor the cleaning efficiency of your washer disinfector on a quarterly basis

- Stainless steel tray for testing of Valisafe CEI (Cleaning Efficacy Indicator)
- Conforms to ISO 15883
- **Can also be used in ultrasonic baths**

MEDIPCD	1 x PCD and 10 CEI test strips	£89.25
MEDICEI10	CEI 10 pack strips	£47.25

## WASHER DISINFECTOR DETERGENT

- 3E-Zyme disinfectant cleaner
- A bacteriostatic triple enzyme cleaner
- Non foaming and PH neutral detergent
- Three in one non-corrosive cleanser is safe & fast acting

- Detergent can be used in washer disinfector or as a pre soak and also for ultrasonic cleaning
- Fully effective against proteins, lipids, carbohydrate & mucopolysaccharides

3EZYME 4 litre

£62.50

PAVO DS is an alkaline, aluminium safe, decontamination detergent designed for use in washer disinfectors and is effective in all water conditions.

MAXIM05 5 Litre

£42.50

## WATER TREATMENT

Scale preventer and water conditioner. Neutralizes hard water salts to prevent scale deposition in 0.5L bottle.

AWT01 2 x 0.5L

£30.45

AWT02 6 x 0.5L

£78.75

## AUTOClaves

### 2100 Classic

Offering the most cost effective solution for sterilisation. Standard Model with instrument basket & tray. 9ltr capacity.

2100 Classic (Basket)

AUTO01

£716.00

Standard Model with instrument cassettes & holder. 9ltr capacity.

2100 Classic (Cassettes)

AUTO01A

£796.00

Green replacement seal for Classic autoclave

AUTO01SEAL1 each

£30.60

AUTO01SEAL pack 4

£111.51

**EXTENDED CAPACITY MODELS & ACCESSORIES AVAILABLE ON REQUEST**

## ACUATIC AUTOCLAVES

- In built data logger records data to an SD memory card
- 5 year parts warranty
- Fast cycle times
- Separate clean and used water reservoirs
- Easy to understand full colour touchscreen display
- Manufactured in the UK
- Sterilizing temp 134° to 138° for 3 mins

## Acuatic 12B

- B type cycle for solid, hollow, tubular or porous loads, wrapped or unwrapped, pouched or not
- N type cycle, a fast non vacuum cycle for solid unwrapped instruments
- 12 litre capacity holds 4 standard 184 x 284mm trays
- Small footprint  
W425 x H340 x L500mm
- Normal dental B cycle 25 mins from warm
- Full porous cycle 40 mins from cold
- Non Vacuum cycle 12 mins

ACUA12B **£3250.00**

## Acuatic 4

- Suitable for solid, hollow and/or pouched instruments – all types of instrument commonly used in dental and chiropody surgeries
- 4 litre capacity holds 3 125 x 225mm trays
- Small footprint  
W345 x H270 x L440mm
- Cycle time 10mins (when hot) to 20mins (from cold)
- Sterilizing temp 134° to 138° for 3 minutes

ACUA4 **£2395.00**

## STERILISER MONITORING

## Helix Device Test (Steam Penetration)

+ 250 tests

The Medisafe TST Helix is a Hollow Load Process Challenge Device (PCD) as defined in EN 867-5 and has been developed and validated for testing the air removal (steam penetration) capability of small Type B steam sterilisers.

- Daily test
- Monitors time and temperature and the quality of steam – the most essential parameter in steam sterilisation
- Self adhesive backing making it simple to include as part of your record system

HELIX 1 Device 250 Tests **£130.00**

## Valisafe Bowie &amp; Dick test pack

- Conforms to EN ISO 11140-4
- HTM01-05 compliant for type B sterilisers
- Clear accurate colour change
- Easy to record and interpret

MEDBD01 pack 20 sheets **£54.60**

## KaVo TST Steriliser Strips

Registers a pass only when subjected to the required heat/time ratio in saturated steam  
KAVOTEST01  
134°C 3 mins x 100

**£13.50**

## Steriliser Indicator Tape

Medisafe Steam autoclave tape for sealing and indicating packages that have been processed

MEDSAT01 19mm x 50mts **£2.60**

## CURING LIGHTS

HIGH POWER LOW PRICE

## Ultralite 1800E

Very High Power Cordless LED curing light

- Light intensity up to 2,000mW/cm².
- Only 3 seconds to cure most composites
- Equipped with two Li-ion batteries, rechargeable.
- Four (4) modes preset:  
H (High intensity) L (Low intensity)  
C (continuous light for orthodontics)  
Soft start (jumpfunction)
- Built-in light checker in the charging base
- 5 second audible bleep for "eyes-free" operation

ULTRA1800E **£395.00**

HIGH POWER LOW PRICE

## Ultralite 1000E

High Power Cordless LED Curing Light

- Light intensity 1,600mW/cm².
- Only 5 seconds to cure composite
- Three programs available: High, Low, and Soft start
- Palm-size, light-weight comfortable handpiece
- Ultra compact size comfortable for small hands
- Built-in light check in the charger
- 5 second audible bleep for "eyes-free" operation

ULTRA1000E **£325.00**

## LED-C

- Light output: 850-1000 mW/cm²
- wave length: 420nm-480nm
- Two batteries included
- 4 presets 5.10.15.20 seconds
- Full, ramp and pulse modes
- A full charge will give 200 x 10 second uses
- Autoclavable light guide

LEDC **£149.00**

BEST SELLER

## CU100A

75W/12V with individual time selection, audible beep, thermal auto shut off, 5-600mW/cm²

CU100A **£179.00**Replacement Bulb SELEBU **£21.50**Light Guide 8mm CU100ALG **£49.00**

## Radii-cal and Radii-plus

Radii-cal LED light with 1200mWcm², 6mm depth of cure and built in radiometer with 2 year warranty  
Radii-plus LED up to 1500mWcm², 2 year battery warranty and 5 year on wand and base

RADIIC01 Cal light **£395.00**RADIP01 Plus light **£565.00**RADIIP06 bleach arch kit **£249.00**RADIIP07 bleach arch stand **£59.95**

## Light Meter

Can read light output of almost all brands of curing lights (LED & Halogen) on the market

IR: Infrared Rays, effective range: 0~100mW/cm²

Blue: Blue light effective range: 0~5000mW/cm²

Suitable for guides of 8mm~13mm.

MET200 **£59.95**

## Scaler Attachment

LED light powered from an EMS style scaler lead. Power output up to 1000mW/cm². Fits UDS-E and UDS-L (page 14) scalers.

WOOD29 **£185.00**

## X-RAY PROCESSORS

### EXTRA-X

Fast versatile processor for Intra-oral cephalometric and Panoramic films. High quality, achievable radiographs are delivered dry in 5 minutes. Endodontic films may be viewed wet in only 2.5 minutes. W510 x H340 x D740 mm

**Please ring for latest Low Prices**

### INTRA-X

High performance Intra-oral film processor. Films may be viewed wet in 2.5 minutes or dry in 5 minutes. Very compact and requires no plumbing in. W290 x H3150 x D435 mm

**Please ring for latest Low Prices**

### SPRINT

Intra-oral films may be viewed wet in only 2 minutes. One of the smallest automatic processors available. Suitable for convenient mounting on surgery wall.

**Please ring for latest Low Prices**

## THE IOX3 DIRECT DIGITAL SENSOR SYSTEM

The iOX3 system is the latest development in the field of digital x-ray imaging. In addition to combining the highest quality and the latest technologies on the market today, it is extremely easy to use. iOX3, Perfection Simplified.

iOX2 system

Direct Transfer

Sensor

The iOX3 system is ready to take images at any time without re-activation or pushing buttons between exposures or patients. It can be switched on in the morning when the dentist arrives and the sensor remains active until the system is switched off. Once the X ray machine is activated the sensor receives the dose of X rays and immediately starts the picture transfer process and the image is displayed automatically on the screen and also saved on the computer's hard disk under the patient's filename.

**The system has a choice of two sensor sizes, 600 20 x 30mm (size 1) and 900 26 x 36mm (size 2) specifications:**

Parameters	iOX3 600mm <sup>2</sup>	iOX3 900mm <sup>2</sup>
Pixel size	19 µm x 19 µm	19 µm x 19 µm
Pixel Pitch	19 µm	19 µm
Area array size	19,95mm x 30,02mm	25,99mm x 36,00mm
Number of lines	1580	1896
Number of columns	1050	1368

The system operates with any USB equipped desktop PC or laptop with the sensor plugging into the USB2 port via a 2.9mtr long cable. The sensors have a CMOS image chip with all the required electronics contained within the sensor. The system is supplied with UltiMax software with an integrated sensor driver. UltiMax works with Windows XP, Vista and Seven both 32 and 64bit versions

## PACKAGES AVAILABLE

### PACKAGE 1

- One high resolution sensor
- iOX3 600 with an active area of 20 x 30 mm (600mm<sup>2</sup>)
- Powerful ultimax software
- A set of iOX3 sensor holders as accessories

IOX3I **RRP £3995.00**

### PACKAGE 2

**As package 1 but with larger sensor**

- iOX3 900 with an active area of 25 x 36mm (900mm<sup>2</sup>)

IOX32 **RRP £4795.00**

### PACKAGE 3

**As package 1 but with 2 sensors**

- iOX3 600 with an active area of 20 x 30mm
- iOX3 900 with an active area of 25 x 36mm

IOX33 **RRP £7495.00**

### GCAM

- 1.3 Mega pixel resolution
- 4-quad image/single image playback
- Built-in memory can store over 400 pictures
- Capture/Freeze/Playback/Save/Delete directly on TV
- User friendly design make the intra oral camera easily manageable
- No computer connection and extra software required

#### SPECIFICATION

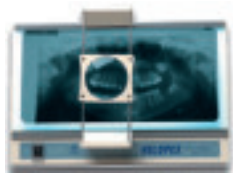

- Sensor definition: SXGA 1.3M pixels(1280 x 1024)
- Supports TV systems: NTSC/PAL/SECAM
- Interface: Digital output:USB1.1; TV output(cable)
- White Balance: Fixed
- Focusing range:15mm to 30mm
- Picture storage format: JPEG
- Storage Interface: Built-in 128MB (can store in excess of 400 pictures)
- Auto Exposure/Auto Compensation
- Light source:4 extra-bright WLEDs

ORAC01 **£395.00**

Additional control box to change signal output from AV to VGA so the camera can be used on any computer monitor. ORAC011 **£49.50**

**Further models available soon. See website for details.**

## Water Distiller KIT

Includes a free jar of distiller cleaner and a pack of 6 carbon sachets valued at over £20.00.

WTD01 Distiller £199.00

WTD02 Cleaner £11.99

WTD03 Storage Jar £15.00

WTD04 Charcoal Sachets £10.90

## ELECTROSURGERY UNIT

- Electrosurgery/Cutting unit
- 7 Piece electrode set
- Cut, Coagulation, Cut-coagulation modes
- 10 Power level settings
- Monopolar unit

ARTE101 £399.00

## AMALGAMATORS

## TAC-400M

Digital Amalgamator can memorise up to 10 different time settings for mixing both amalgam and filling material capsules. Speed 4200rpm. Italian manufacture

ALMT01

£195.00

## ALMTG7

Digital Amalgamator with wide range of speed and time adjustment

- Digital LED shows speed and time
- Time adjustable 3 – 60 seconds
- Speed adjustable 2800 rpm to 4700 rpm
- Noise <65dba
- L260 x W220 x H190mm
- Metal forks suitable for most capsules and glass ionomers
- Auto stop when lid open

ALMTG7

£159.00

## Ultramat 2

High precision microprocessor controlled timer provides consistent and accurate trituration. The machine has multi-use features suitable for all types of capsules. Speed 4600 rpm. 5 Year warranty

ALMT03

£295.00

## ELECTRODE SET

NEW

## HYGEA 2

Hygea 2 benchtop ultrasonic cleaner for pre-sterilisation cleaning of dental and surgical instruments

Tank dimensions: 285 x 205 x 160mm (W x D x H)

3 tier basket tray system 240 x 170 x 15mm

Capacity: 8 litres/up to 45 standard dental instruments

Menu-driven LCD control panel

**Validation:** • Dual cycle traceability

• SD port for digital cycle traceability

• Integral printer provides hard copy validation:

- Practice & Operator names
- Date & Time
- Cycle No
- Set and achieved cycle parameters

**Compliance & approvals:**

• HTM01 -05 and HTM2030 compliant

• NP143 Scottish Contract approved

**Operating features:**

- Electro-magnetic locking lid prevents cycle interruption
- Full cycle validation and traceability
- Easy access drain valve
- Thermostatic over-temperature cut off prevents the risk of protein coagulation
- Easy drain of instruments after cleaning

HYGEA2

£1995.00

## ALGINATE MIXER

- Economical Alginate Mixer
- Two speed 120rpm and 250rpm
- Mixing free from bubbles and lumps
- Auto alarm after 20 seconds

ALGMIX01

£149.00

## INSTRUMENT INSPECTION LAMP

Inspect your instruments with this illuminated magnifier

- 22 watt fluorescent ring lamp
- 5" lens with cover
- Worktop clamp mount

MAGNIFY01

£34.95

## INSTRUMENT STERILISATION POUCH SEALING MACHINE

- Dual cutting and sealing action
- Thermostatically controlled heater
- Stainless steel covering
- Inset double-blade cutter for easy and smooth cutting
- Maximum cutting width 25cm
- Adjustable width reel holder

SPSM01

£249.00

See page 46 for sterilisation rolls

### INSTRUMENT KITS - KIT 1

3 Tray Setting Contains:

- 3 Aluminium Instrument Trays
- 1 Pack of Tray Liners
- 3 Probes ~ 3 Tweezers
- 3 Dycal Applicators
- 6 Excavators
- 1 Box of Mirror Heads
- 3 Mirror Handles ~ 3 Ball Burnishers
- 1 Spatula ~ 3 Amalgam Packers
- 3 Flat Plastics ~ 3 Carvers

KIT1 **All for £99.50**

### INSTRUMENT KITS - KIT 2

Forceps Kit Contains:

1 each of BDSI items:

- 308 Upper Anterior Roots
- 310 Upper Anterior
- 314 Upper Premolar
- 326 Upper Roots Bayonet
- 329 Right Upper Molars
- 330 Left Upper Molars
- 349 Lower Incisors, Canines & Premolars

**£7.95**

## TEMPORARY CROWN &amp; BRIDGE COMPOSITE

## Structur 2 SC

Self-curing composite material in cartridges for fabricating provisional crowns, bridges, inlays and onlays  
VOSC01 cartridge 75gm shade A3

**£57.50**

## GLASS IONOMERS

### Riva Self Cure

A packable, fluoride releasing, glass ionomer restorative, tough enough to resist surface indentation and strong enough to withstand substantial mechanical loads.

Boxes of 50 capsules in regular or fast set in 7 shades A1, A2, A3, A3.5, A4, B2, B3

Box 50 reg set

RIVARS \_\_ (shade) **£64.50**

Box 50 fast set

RIVAFS \_\_ (shade) **£64.50**

### Riva Light Cure

A light cured, resin-reinforced glass ionomer restorative with high fluoride release, excellent chemical adhesion to the tooth structure and beautiful aesthetics

Boxes of 50 capsules in regular or fast set in 11 shades A1, A2, A3, A3.5, A4, B2, B3, B4, C2, C4, b

Box 50 reg set

RIVARLC \_\_ (shade) **£68.50**

### Riva Silver

A packable, fluoride releasing silver reinforced glass ionomer restorative predominantly for class I and II restorations, deciduous teeth, geriatric teeth and core build ups.

Box 50

RIVASIL01 **£69.75**

### Ceram II VLC

New condensable light cured glass ionomer restorative powder and liquid formulation ideal for anterior teeth. High stability, excellent translucency fluoride release.

10g Powder & 6ml liquid

CERA01 **£24.95**

## AMALGOMER

- Designed to match the strength and durability of amalgam
- Sustained high level of Fluoride release
- Working time minimum 1 min 20 seconds
- Clinical setting time max 3 min 30 seconds
- Water mix and Powder/Liquid versions available
- No shrinkage, corrosion, expansion or thermal conductivity problems associated with other filling material
- Shades A2, A3, A3.5 in 12gm hand mix powder/water

AMALGA2 **£33.50**

AMALGA3 **£33.50**

AMALGA3.5 **£33.50**

## AMALGOMER CR

High strength posterior glass ionomer restorative

- Ceramic Reinforcement
- Exceptionally low wear
- Excellent for core build ups
- High strength, exceeds 300MPa
- Universal tooth shade
- 12 gm hand mix powder/water

AMALGCR **£40.50**

## AMALGOMER KIT

Contains 4 x 12g shades A2, A3, A3.5, B2, 1 x 12g CR universal, 10ml dentine conditioner 5ml varnish bottles & scoops

AMALGINT **£159.00**

## Ceramfil A.R.T

Glass ionomer especially developed for the atraumatic restorative technique. Easy to use, minimal cavity preparation. Fast mix with water. Quick setting. Fluoride release, tight marginal seal ideal for class III and V cavities. (Universal shade)

Pack contains: 30gm powder, 9ml bottle varnish and accessories.

CART01 **£22.50**

## GREAT PRICE

## Ceramfil B Glass Ionomer Kit

Glass ionomer restorative. Faster and brisker setting times. Enhanced particle size for more improved life-like aesthetics. Bland to pulpal tissues. Translucent with fluoride release. Perfect for class III, V and erosion cavities. 5 x 10gm pots (50gm) per kit. Available in the shades below:

Ivory	(CERK1)
Light Yellow	(CERK2)
Universal	(CERK3)
Light Grey	(CERK4)
Yellow	(CERK5)
Light Brown	(CERK6)
Light Brown/Dark Yellow	(CERK7)

1 KIT **£45.00**

2 KITS **£42.75 each**

5 KITS **£41.40 each**

1 Refill **£11.70**

3 Rate **£11.20 each**

**KITS AVAILABLE PER SHADE, ASSORTED OR MIXED TO YOUR REQUIREMENTS**

Refills available in all shades, quote code CERS\_\_ then shade when ordering.

## BEST SELLER

## Ceramfil Molar

Innovative microglass restorative condensable powder and liquid formulation. Ceramfil Molar is a high strength, condensable microglass ionomer restorative perfect for small posterior fillings. Brisk, snap set. High fluoride release. Ideal for immediate restoration of traumatised teeth. Perfect aesthetics. Pack Contains: 25g powder (universal shade), 15ml liquid, powder measure and mixing pad.

CRMM01 **All for £23.50**

## Ceramcore B Aquaset

Fast setting glass ionomer for fabrication of cores and general build up of the tooth. Easy to mix. Easily trimmed as part of crown prep during same visit. Bonds to enamel, dentine and pins. No corrosion. Fluoride release. Radiopaque.

Yellow Shade

CNC01 **£17.75**

## Ceramcore B silver reinforced

Metallized Glass Ionomer for Build up of Broken Crowns. Sets briskly. High compressive strength. Excellent abrasion resistance due to high silver content. Extremely bland to pulp. Contours and carves easily.

30g Powder kit

SRI01 **Only £28.50**

## GLASS IONOMERS cont.

**Ceramsave B Aquaset**

Fast setting glass ionomer developed for the restoration of deciduous teeth. Kind to pulp, bonds to tooth only minimal cavity prep required. fluoride release, tooth coloured, Radiopaque. 30g Powder Kit.

CMS01 **£19.50**  
**2 KIT rate £19.00 each**

**Shofu Hi-Fi Glass Ionomer**

- Anterior glass ionomer restorative
  - Fluorescence like enamel
  - Early translucency
  - Excellent colour match
- Hi-Fi Select Palette

Contains: 1 each 15g G.I. Powder in A2, A3.5, B2 and C3 10ml liquid, Hi-glaze & Hi-tooth cleanser.

SET\_ \_ (Shade) box of 50 **£129.00**

Assorted box of 50 contains 10 of each

SET01 **£129.00**

**seTpp**

seT PP syringe refills

SETPP 2 x 7g **£67.95**

**Riva Luting**

A high fluoride releasing glass ionomer cement. Maximises caries prevention.

For cementation of metal or porcelain fused to metal inlays, onlays and crowns.

Box 50

RIVALC **£48.12**

**Riva Protect**

A high fluoride releasing glass ionomer cement designed for surface protection, sealing and caries stabilisation of newly erupted or caries challenged dentition.

White caps (bleach shade).

Box 50

RIVAPRO01 **£68.49**

Red caps (pink shade).

Box 50

RIVAPRO02 **£68.49**

**Riva Luting Plus**

Riva Luting Plus is a resin modified, self curing, glass ionomer luting cement, designed for final cementation of metal, PFM and resin crowns, bridges, inlays and onlays plus ceramic inlays and crowns. Riva Luting Plus chemically bonds to dentin, enamel and all types of core material. Radiopaque, universal light yellow shade with high fluoride release.

Box 50

RIVALPC **£64.95**

**Ceram I**

New glass ionomer luting cement. Powder and liquid formulation. Perfect for cementation of crowns, bridges, posts, veneers, orthodontic bands. Fluoride release. Highly translucent. Ideal for lining dentinal wall of cavities for composite restoration.

CERI01 **£23.70**

**Cerambase**

New glass ionomer lining material. Exciting new glass ionomer lining cement powder and liquid formulation. Radiopaque. Acid etchable. Excellent adhesion to dentine enamel and pins. Fluoride release. Extremely bland to pulp.

CRMB01 **£21.00**

## CEMENT AND LINERS cont.

### Ceramchem Aquaset

Water activated, fast setting permanent luting cement for cementation of crowns and bridges. Strongly adhesive to tooth and restorations. High translucency. Does not interfere with shade of restoration. Very low film thickness. Fluoride release. Kind to pulp. High compressive and diametric strengths.

30g Powder  
CMC01

**£21.50**

### Carbchem aquaset

Water activated, fast setting Polycarboxylate luting cement. Strongly adhesive to tooth and restorations. Low film thickness. Safe and bland to pulp. High compressive strength. Superior handling. Can be used for durable temporary filling.

CBC01

**£19.00**

### Orthocem B

Unique glass ionomer bonding adhesive for use in the cementation of bands. Water activated. Fluoride release. Bonds to metal and tooth. No acid etching of tooth required. Translucent. Bio-compatible. Excellent working characteristics.

OCM01

**£19.50**

### Reinforced Zinc Oxide Combi Pack

Microfine zinc oxide resin reinforced zinc oxide/eugenol cement. 120g Powder & 30ml liquid

## SURGERY CONSUMABLES

### EXAMINATION GLOVES

Both Handsafe and Micron branded gloves are certified to British standards EN455 **parts 1 2 & 3** making them suitable for use in dental, medical, pharmaceutical, veterinary and laboratory environments. These gloves should not be confused with inferior industrial grade products. Part 3 requires gloves to be tested to protect users and their health against chemicals, endotoxins, proteins, pyrogens... Gloves tested to parts 1&2 only cannot claim to be fully complying with the standard

**Buy any 20 for £10.00**

**Buy any 100 for only £30.00**

## TOOTH WHITENING

SDI

### Pola Office+

#### No bleaching light required

Pola Office+ 6% can be used with or without a bleaching light, as it does not require activation. While a light is not necessary, you certainly can use a bleaching light or a standard heat emitting curing light to accelerate the bleaching process and impress your patients.

#### Maximum comfort

The high pH of Pola Office+ 6% soothes teeth and ensures maximum comfort during and after treatment. The shorter treatment results in less patient discomfort and lower sensitivity.

#### Very stable

Pola Office+ 6% dual barrel syringes ensure maximum stability until the product is mixed. The alkaline part is kept separate until just before use.

#### Simple procedure

Pola Office+ 6% is easy to apply. No soft tissue isolation is required. With simple tooth preparation and quick

contact time per application, it reduces chair time and improves productivity.

#### Built-in desensitiser

No separate desensitiser is required. Pola Office+ 6% has unique built-in desensitising properties that inhibit post-operative sensitivity. Potassium nitrate, the key pain-reducing ingredient, penetrates the nerve endings by blocking transmission of sensitive nerve impulses to provide a calming effect.

#### Simple delivery

No separate mixing is required. The dual barrel syringe system mixes as you apply the gel directly to the tooth. This ensures a consistent blend of freshly activated gel. The freshly activated gel maximises the whitening effect. The fine applicator tip allows easy application, especially in tight spots.

#### Just one thin layer

A thin layer of gel is all that is required. Use the tip to spread the gel ensuring all tooth surfaces are covered. The sticky gel formula adheres firmly to tooth surfaces maximising the bleaching effect.

Pola Office+ 1 patient kit  
1 x 2.8ml syringe

POLAOFF61 rrp £36.44 **£30.50**

Pola Office+ 3 patient kit  
POLAOFF63 rrp £99.40 **£83.50**

## TERMS & CONDITIONS

### VAT

Prices quoted are exclusive of VAT unless otherwise indicated. VAT at the current rate will be added to all invoices.

### PRICES

These prices supersede all previous prices and are applicable only to goods despatched directly by us.

We will endeavour to hold all prices for the duration of the catalogue but reserve the right to change prices without prior notice if necessary.

We reserve the right to correct clerical omissions and errors.

### TITLE

Title in the goods or any part thereof shall only pass to the customer when payment in full for all goods whatsoever supplied and all services rendered at any time by BDSI has been made. The customer shall permit so far as it is able and shall use its best endeavours to assist any officer, employee, representative or agent of BDSI to enter onto any premises where the goods may from time to time be situated and to repossess the goods at any time prior to title passing to the customer and until such time as title passes the customer shall hold the goods as BDSI's fiduciary agent and bailee.

### PAYMENT

Payment is due strictly net 28 days following the date of the invoice.

Interest may be charged on overdue accounts at the rate of 2% per month accruing daily.

We reserve the right to re-invoice all goods on overdue accounts at their full retail price no matter what the agreed or original invoiced price.

### DELIVERY

We will endeavour to despatch on the same day all orders received by 3.00 pm.

Delivery will be by next day carrier or first class post to mainland UK. Delivery to N.Ireland, Scottish Highlands and Isles may take longer.

Shortages and breakages must be reported to BDSI within 3 working days of receipt of goods and confirmed in writing within 14 days.

BDSI reserve the right to invoice at cost all packing and carriage charges on any order outside the UK inclusive of any tax duties in force at the date of despatch.

We reserve the right to charge carriage on deliveries made directly by other suppliers for invoice through us.

### RETURNED GOODS

All goods returned should be accompanied by the Buyer's customer number and the number of the invoice on which the goods were supplied. A credit note cannot be issued if the original invoice cannot be traced.

All goods lost or damaged in transit following despatch by the buyer for return to BDSI will not be credited. If within 14 days of the goods being despatched to BDSI a credit note or acknowledgement of receipt has not been received by the Buyer from BDSI the buyer should contact BDSI immediately.

All sterile and/or goods with a product licence must be returned within 5 days and cannot be accepted for credit if the seal or outer packaging has been damaged or removed, unless

- there has been a delivery error
- the products are subject to a manufacturer's recall
- the products are damaged or faulty

All equipment including handpieces can only be returned for full credit if complete in the original packaging and unused and in a re-saleable condition.

We reserve the right to charge 15% of invoice value of returned goods to cover administration and handling expenses.
